A JOURNEY TOWARDS KNOWLEDGE, CHARACTER AND EXCELLENCE

Welcome to Our School

Welcome to Navneet International School of Science. We are committed to nurturing young minds and preparing students for a promising future through a positive, disciplined and stimulating learning environment.

Our aim is to support every child in developing academic knowledge, creativity, confidence, leadership qualities and strong values. We believe education is more than the acquisition of information: it is a lifelong process of developing curiosity, character, responsibility and the ability to contribute positively to society.

The school offers English-medium education from Nursery to Class X, with an emphasis on academic development, scientific understanding, communication skills and holistic personality development.

“Learn today. Lead tomorrow.”

Our Vision

To become a centre of educational excellence that inspires students to acquire knowledge, develop character, embrace innovation and become responsible citizens of the nation.

Our Mission

- Provide quality education through effective teaching and learning practices.
- Develop scientific temperament, analytical thinking and problem-solving abilities.
- Encourage creativity, innovation and independent learning.
- Promote discipline, honesty, respect and social responsibility.
- Strengthen communication skills, confidence and leadership.
- Encourage participation in sports, cultural activities and extracurricular programmes.

Message from the Manager

Dear Parents and Students,

Education is the foundation of individual progress and national development. It is our responsibility to provide children with an educational environment that helps them grow intellectually, socially, emotionally and morally.

At Navneet International School of Science, our aim is to combine academic learning with discipline, ethical values and modern educational practices. We believe that every child possesses unique potential. With proper guidance, encouragement and opportunities, this potential can be transformed into meaningful achievements.

Our institution is committed to supporting a culture of learning, innovation, responsibility and mutual respect. I warmly welcome parents and students to become part of our educational community and join us in our mission of building a brighter future.

Mrs. Reeta Singh
Manager
Navneet International School of Science

Message from the Principal

Dear Students and Parents,

It gives me immense pleasure to welcome you to Navneet International School of Science for the academic session 2027–28. School education plays a vital role in shaping the personality, character and future of every child.

Our objective is to provide meaningful learning experiences that encourage students to think critically, communicate effectively and develop confidence in their abilities. We emphasize conceptual understanding, regular academic assessment, discipline, creativity and active classroom participation.

Our educational approach seeks to create a balance between academic achievement, scientific learning, sports, cultural activities and moral development. I encourage every student to approach learning with curiosity, determination and sincerity.

With the cooperation of parents, teachers and students, we look forward to making the academic session productive, inspiring and successful.

Mr. Rahul Shahi
Principal
Navneet International School of Science

ENGLISH-MEDIUM EDUCATION | NURSERY TO CLASS X

Academic Programmes

Pre-Primary Section – Nursery, LKG and UKG

The foundational stage focuses on communication, social interaction, creativity, motor skills and early numeracy and literacy. Learning may include storytelling, rhymes, drawing, interactive games and age-appropriate activities.

Primary Section – Classes I to V

Students develop foundational knowledge in languages, mathematics, environmental studies and other age-appropriate subjects. Emphasis is placed on reading, writing, numerical abilities, general awareness and positive learning habits.

Middle Section – Classes VI to VIII

Students strengthen subject knowledge, analytical abilities and activity-based learning. The academic approach emphasizes conceptual understanding, scientific thinking, mathematics, language proficiency and social awareness.

Secondary Section – Classes IX and X

The secondary stage focuses on systematic academic preparation, conceptual clarity, regular practice and examination readiness. Students receive guidance in independent study habits and time management.

The curriculum, subject combinations and examinations shall follow the applicable requirements of the affiliating board.

Science, Technology and Smart Learning

Science Laboratory

The science laboratory supports age-appropriate practical demonstrations, experiments and activities under teacher supervision. Students are encouraged to observe, ask questions and connect scientific concepts with everyday life.

Computer Laboratory

Computer education aims to promote digital literacy, logical reasoning and familiarity with information technology. Students are encouraged to use technology responsibly and productively for learning.

Smart Classrooms

Smart classroom facilities support interactive teaching and student engagement through digital learning resources and visual presentations, helping students understand academic concepts more effectively.

Our teaching approach

- Concept-based teaching and classroom discussion.
- Interactive participation and activity-based learning wherever appropriate.
- Regular revision and academic assessment.
- Development of communication and presentation skills.
- Attention to students' learning needs and progress.

Library and Reading Culture

The school library supports the development of reading habits, independent learning and intellectual curiosity. Students are encouraged to explore age-appropriate books, reference materials, general knowledge resources and educational literature. Regular reading helps improve vocabulary, comprehension, imagination and communication skills.

Sports and Physical Education

Physical education is an important component of holistic student development. The school encourages participation in sports and games to promote physical fitness, teamwork, discipline, confidence and leadership. Activities are organized according to available facilities, age groups and the school calendar.

Students are encouraged to demonstrate sportsmanship, cooperation and respect for others.

School Facilities

Facility	Educational purpose
Smart Classrooms	Interactive teaching and visual learning support.
Science Laboratory	Supervised, age-appropriate practical learning.
Computer Laboratory	Digital literacy and responsible technology use.
Library	Reading, reference and independent learning.
Sports and Games	Fitness, teamwork and sportsmanship.
Transport Facility	Designated routes, subject to availability.

Transport Facility

School transport is available on designated routes, subject to seat availability and applicable arrangements. Parents should obtain route details, pickup points, timings, charges and safety instructions from the school office. Students using school transport must follow the instructions of authorized transport staff.

Co-Curricular Activities

The school encourages age-appropriate participation in educational and creative activities, subject to the annual school calendar. Such activities help develop creativity, leadership, teamwork and self-confidence.

- Art, drawing and craft.
- Essay writing and creative writing.
- Quiz and general knowledge competitions.
- Speech, debate and storytelling.
- Science-related educational activities.
- Cultural programmes and national celebrations.
- Environmental awareness activities.
- Sports and recreational competitions.

Character Building and Value Education

Academic excellence must be accompanied by strong moral character. Students are encouraged to practice honesty, punctuality, discipline, kindness, respect for elders, environmental responsibility and cooperation.

Parent–Teacher Cooperation

Parents are important partners in the educational development of their children. The school encourages regular communication between parents and teachers regarding academic progress, attendance, discipline and overall student development.

Parent–teacher meetings provide opportunities to discuss learning needs, identify areas requiring improvement and develop constructive strategies for student progress. Parents are requested to cooperate with the school in maintaining a positive and supportive educational environment.

Student Development

- Encouraging curiosity and a love of learning.
- Building confidence and effective communication.
- Developing responsibility and self-discipline.
- Promoting teamwork, empathy and respect.
- Supporting balanced academic and personal growth.

ACADEMIC SESSION 2027–28 | NURSERY TO CLASS X
